ARCWEST EXPLORATION INC. SIGNS DEFINITIVE AGREEMENT TO ACQUIRE THE SPARROWHAWK PROJECT

March 20, 2019
Vancouver, BC

ArcWest Exploration Inc. (TSX-V: AWX) (“**ArcWest**”) is pleased to announce that, further to its press release dated January 22, 2019, it has signed a Definitive Agreement dated February 26th, 2019, with Rolland Menard (the “Vendor”) with respect to the acquisition by ArcWest of 100% of the Sparrowhawk Property (the “Property”). The Property is situated 65 km northeast of Smithers in north-central British Columbia, adjacent to Glencore Canada’s Bell and Granisle mine property and Pacific Booker’s advanced stage Morrison property. The terms of transaction set out in the Definitive Agreement include:

- ArcWest will acquire 100% of the Property;
- ArcWest will make a cash payment to the vendor of CAD\$5,000;
- ArcWest will issue 87,000 common shares to the vendor;
- The vendor will retain a 1% net smelter return royalty, which can be purchased by ArcWest for a cash payment of \$2,000,000.

ArcWest President & CEO Tyler Ruks commented: *“The Babine area is a significant porphyry copper-gold district in British Columbia which includes Glencore’s past-producing Bell and Granisle mines, and Pacific Booker’s advanced stage Morrison project. The Sparrowhawk property is situated in between the Bell-Granisle and Morrison deposits, with mineral claims that are contiguous with both Glencore’s and Pacific Booker’s land positions. Importantly, the Sparrowhawk project is situated along a prospective corridor which contains both the controlling structures for Babine-district porphyry copper-gold deposits, and associated, widespread porphyry copper-gold occurrences and high grade breccias, all of which remain untested by drilling. We are looking forward to exploring the project in 2019.”*

The Proposed Transaction is subject to receipt of all necessary regulatory approvals including approval of the TSX Venture Exchange.
